## Independent Auditors' Report

The Village Board  
Village of River Hills  
Milwaukee County, Wisconsin

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of River Hills, Wisconsin ("Village") as of and for the year ended December 31, 2018, and the related notes to the financial statements which collectively comprise the Village's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Village as of December 31, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Change in Accounting Principle

As discussed in Notes 11, 5 and 7 to the financial statements, in 2018 the Village adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. As discussed in Note 11 to the financial statements, in 2018 the Village adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to these matters.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information and schedules of the proportionate share of the net pension asset (liability) and employer contributions, and schedules of proportionate share of the net OPEB asset (liability) and employer contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's financial statements as a whole. The supplementary financial information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The supplementary financial information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**Village of River Hills, Wisconsin**  
**December 31, 2018**

Our discussion and analysis of the Village of River Hills' financial performance provides an overview of the Village's financial activities for the fiscal year that ended on December 31, 2018. Please read it in conjunction with the Village's financial statements following this section.

**Financial Highlights**

- The Village's total net position increased by \$435,866, or 44%, from December 31, 2017 to December 31, 2018. The Village's unrestricted portion of net position increased by \$74,937 during 2018.
- Fund balance for total governmental funds decreased by \$67,261 during 2018. The general fund's fund balance increased by \$30,285 during 2018.
- Capital asset balances increased by a net total of \$230,043, or 6%, while total long-term debt decreased by a net total of \$306,225, or 7% during 2018.

**Overview of the Financial Statements**

This annual financial report consists of three parts:

- Management's Discussion and Analysis
- Basic Financial Statements
- Required Supplementary Information

The basic financial statements include the Statement of Net Position, Statement of Activities, Balance Sheet-Governmental Funds, Reconciliation of the governmental Funds Balance Sheet to the Statement of Net Position, Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds, Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities, Statement of Fiduciary Net Position – Fiduciary Funds and Statement of Changes in Fiduciary Net Position-Fiduciary Funds, and Notes to the Financial Statements. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

The Statement of Net Position reports information about the Village as a whole using accounting methods similar to those used by private sector companies. The statement of net position includes all government assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

These two government-wide statements report the Village's net position and how they have changed. Net position – the difference between the Village's assets and liabilities is one way to measure the Village's financial health, or position.

- Over time, increases or decreases in the Village's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Village, you need to consider additional non-financial factors such as changes in the Village's property tax base, economy and rate of growth.

The government-wide financial statements of the Village include:

- Governmental activities – The Village's basic services are included here such as police, fire, public works, assessing, finance and administration. Property taxes and state aid finance most of these activities.

The fund financial statements provide detailed information about the Village's significant funds. Funds are accounting devices that the Village uses to keep track of specific sources of funding and spending for particular purposes.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**Village of River Hills, Wisconsin**  
**December 31, 2018**

**Overview of the Financial Statements (continued)**

The Village has two kinds of funds:

- Governmental funds – Most of the Village’s basic services are included in governmental funds which focus on (1) how cash, and other financial assets that can readily be converted to cash, flow in and out, and (2) the balances left at year end that are available for spending. Consequently, governmental funds statements tell how general government services like public safety and public works were financed in the short term as well as what future spending remains. Because this information does not encompass the additional long-term focus of government-wide statements, additional information is provided on separate pages explaining the differences between them.
- Fiduciary funds – Trust and Agency funds are used to account for assets held by the village in a trustee capacity or as an agent for individuals, private organizations and/or other governmental units. The Trust and Agency fund included in these statements is the Tax Collection Fund. The Village is an agent for collection of all taxing districts, including Maple Dale/Indian Hill School District, Glendale-River Hills School District, Nicolet Union High School District, Milwaukee Area Technical College, Milwaukee Metropolitan Sewerage District, Milwaukee County and the State of Wisconsin. All of the Village’s fiduciary activities are reported in a separate statement of fiduciary net position. These activities are excluded from the Village’s government-wide financial statements because these assets cannot be used to finance operations.

**Financial Analysis of the Village as a Whole**

A summary of the Village’s Statement of Net Position is presented below in Table 1.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

Village of River Hills, Wisconsin

December 31, 2018

**Financial Analysis of the Village as a Whole (continued)**

Statement of Net Position: During 2018, current and other assets increased by \$432,197 or 9.9% as a result of:

- Increase in cash and investments of \$1,595,283, and a decrease in due from agency fund of \$2,108,022 due to the implementation of GASB 84.
- Increase in taxes receivable of \$663,944.
- Increase in net pension asset of \$368,018.
- Noncurrent portion of long-term debt decreased \$326,347.

Capital assets increased by \$230,043, or 6%. Please refer to page 7 for further discussion about capital asset activity.

Deferred outflows related to the pension liability increased in the amount of \$188,008, mostly due to differences in actual and expected return on investments and changes in assumptions. A new category for deferred outflows related to OPEB liability in the amount of \$11,333.

There was an increase in deferred inflows of \$790,136 due to increases in the property tax levy for 2018 and difference between actual and expected experience related to the pension liability.

Long-term debt decreased by \$306,225, during 2018, due mainly to the reduction of general obligation bonds of \$272,610, while compensated absences decreased by \$33,615.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**Village of River Hills, Wisconsin**  
**December 31, 2018**

**Financial Analysis of the Village as a Whole (continued)**

Charges for services increased by \$23,551, or 3%. The Village's operating grants and contributions increased \$73,004; capital grants and contributions increased by \$113,507; and Property taxes increased by \$83,549 or 2.6% due to increases in the levy limit.

Overall, the Village's expenses increased by 4.6%. Increases in total are mostly driven by cost of living adjustments to salaries, materials and equipment.

**Financial Analysis of Village's Funds**

**General fund:** Revenues increased by \$80,462 or 2.4%. General governmental expenditures increased by \$49,457 due to a number of factors – the retirement of the Village Manager, an increase in Attorney fees related to a development, increase in village hall repairs and maintenance, and an increase in insurance premiums. Public safety expenditures increased by \$151,462 due mostly to increases in contractual services and the hiring of two officers due to a retirement. Public works expenditures increased by \$31,304 due mostly to an increase in fuel and supplies, an increase in contractual services, an increase in road repairs supplies and expenses related to resident brush pickup and other services. Capital outlay decreased by \$163,580 mostly due to a savings of \$45,134 in capital equipment that was not purchased. Other expenditures remained fairly static during 2018. Overall general fund expenditures increased by \$93,827.

**Debt Service fund:** Scheduled debt service payments increased in 2018 by \$62,183.

**Sewer fund:** The sewer fund was reported as a major fund in 2018. There was an increase of \$122,486 in intergovernmental revenue during 2018. There was an increase in public works expenditures of \$43,640 due to sewer projects that are funded by MMSD and an increase in capital outlay of \$219,463 due to the replacement of the Major Lane lift station. During 2018, the sewer fund borrowed \$125,420 to help finance the capital expenditures in the fund.

**Non-major, Capital projects funds:** During 2018, the capital projects funds fund balance decreased by \$54,252 overall. This decrease is due to public safety expenditures for police radios, Bayside capital for dispatch and the purchase of a municipal court server.

**General Fund Budgetary Highlights**

Budgets are adopted at the departmental level. There were no budget adjustments approved by the Board during 2018.

Actual revenues collected in the General Fund were relatively consistent with budgeted amounts, with an overall positive variance of \$117,768. This variance is mostly due to unbudgeted revenue sources such as unanticipated grants received in the Police Department, and also higher than anticipated permit revenue and special service job orders.

Actual expenditures in the General Fund exceeded budget by \$83,318. The Village Attorney was over-budget by \$13,490 due to a proposed development, and Public safety was over-budget by \$53,157 due mostly to contractual services and the hiring of two officers due to a retirement.

Long-term Debt: At year end the Village had general obligation promissory notes and State Trust Fund Loans that totaled \$3,307,584 and total long-term obligations of \$3,812,077. The Village has the power to incur indebtedness for Village purposes specified by statute in an aggregate amount, not to exceed five percent of the equalized value of taxable property in the Village. Our legal debt capacity as of December 31, 2018 was \$22,817,290 so the Village is currently at 14.50% of capacity. We have additional borrowing capacity of \$19,509,706.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**Village of River Hills, Wisconsin**  
**December 31, 2018**

**Economic Factors and Next Year's Budget**

One historic strength of the Village is its tax base. For a municipal government such as River Hills, with most revenue derived from property taxes, protecting the tax base is primary. We are seeing trends in post-recession River Hills where housing sales are clearly on the rebound. We are convinced the turnover of homes caused by the recession has stabilized and strengthened the tax base.

With the 2018 Budget we see a return to borrowing for capital improvements. The 2019 budget explores opportunities to enhance revenues and cut expenditures with the development of a 10-year capital expenditure plan. This plan will help to forecast annual operation and maintenance costs, including a long-range capital expenditure forecast so that the two can be better balanced. Our goal is to develop a sustainable plan for financing the ongoing maintenance of current services as well as creating a plan to address and eliminate deficit fund balances.

**Contacting the Village's Financial Management**

of Governmental Funds to the Statement of Activities**  
Year Ended December 31, 2018

Net change in fund balances - total governmental funds	\$	(67,261)
The change in net position reported for governmental activities in the statement of activities is different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. These amounts are as follows:		
Depreciation expense	\$ (357,359)	
Capital outlays	<u>587,402</u>	230,043
Capital assets are not reported in the funds, therefore governmental funds do not report gains or losses on their disposal like the statement of activities does.

Proceeds received	<u>(11,529)</u>	---
Repayment of principal is an expenditure in the governmental funds, but reduces liability in the statement of net position.

Proceeds on new debt is an other financing source in the governmental funds, but increases liability in the statement of net position		
		(434,886)
In the Statement of Activities, revenues related to future reimbursements are reported as capital grants. In the governmental funds, however, revenues for these items are measured by the amount of financial resources received.		
Future reimbursements	58,087	
Current reimbursements	<u>(33,533)</u>	24,554
In the Statement of Activities, the cost of pension benefits and OPEB benefits earned net of employee contributions is reported as an expense. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.		
Pension expense	(175,110)	
Village pension contributions	129,944	
OPEB expense	(9,861)	
Village OPEB contributions	<u>628</u>	(54,399)
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. The following adjustments are created by these differences in accounting methods:

**VILLAGE OF RIVER HILLS**  
Milwaukee County, Wisconsin

**Notes to Financial Statements**  
December 31, 2018

**1. Summary of Significant Accounting Policies**

The Village of River Hills' ("Village") complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

**A. Financial Reporting Entity**

This report includes all of the funds of the Village of River Hills. The reporting entity for the Village consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A legally separate organization should be reported as a component unit if the elected officials of the primary government are financially accountable to the Village. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. A legally separate, tax-exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met. (1) the economic resources received or held by the separate organization are entirely, or almost entirely, for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government is entitled to, or had the ability to otherwise access, a majority of the economic resources received or held by the separate organization; (3) the economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. This report does not contain any component units.

**B. Government-Wide and Fund Financial Statements**

**Government-Wide Financial Statements**

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The statement of net position presents the governmental activities assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position on a full accrual basis, which recognizes all long-term assets and long-term liabilities. The Village's net position is reported in three classifications: net investment in capital assets, which consists of the difference between capital assets net of accumulated depreciation less outstanding debt used to acquire those assets; restricted net position, which represents assets required by outside parties or legislation to be spent in a specific manner; and unrestricted net position which is net position not included in the other two classifications.

(Continued)

**1. Summary of Significant Accounting Policies (continued)**

**B. Government-Wide and Fund Financial Statements (continued)**

**Government-Wide Financial Statements (continued)**

The statement of activities presents the activities of the governmental activities on a full accrual basis. These activities are presented in a manner which demonstrates the degree to which the direct expenses of a given function are offset by program revenues of that function. Program revenues are presented in three classifications: charges for services, which include direct charges to customers benefiting from the services, goods or privileges provided; operating grants and contributions, which were received in activities related to that function but not required to be used for capital asset acquisition; and capital grants and contributions which were received in activities related to that function and required to be used for the acquisition of capital assets. Other revenues not attributable to individual functions and taxes are reported as general revenues.

**Fund Financial Statements**

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues, and expenditures. Funds are organized into two major categories: governmental and fiduciary. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

- Total assets, liabilities, deferred inflows/outflows of resources, revenues, or expenditures/expenses of the individual fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- Total assets, liabilities, deferred inflows/outflows of resources, revenues, or expenditures/expenses of the individual fund are at least 5 percent of the corresponding total for all funds combined (not including fiduciary funds).
- In addition, any other fund that the Village believes is particularly important to financial statement users may be reported as a major fund.

The Village reports the following major funds:

**Major Governmental Funds**

- General Fund - the General Fund is the primary operating fund of the Village and is always classified as a major fund. It is used to account for all financial transactions except those legally or administratively required to be accounted for in another fund.
- Debt Service Fund - the Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.
- Special Revenue Sewer Fund – the Special Revenue Sewer Fund is used to account for revenues requiring separate accounting because of legal, regulatory or administrative provisions.

**Fund Financial Statements (continued)**

**Non-major Governmental Funds**

- Capital Projects Funds - are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment, and consist of the following individual funds:

Capital Fund	Annual Road Program
Police Department	Range Line Road Bridge

**Fiduciary Funds**

- Custodial Funds - are used to account for assets held by the Village in a purely custodial capacity. The Village's custodial fund is used for recording assets collected for other taxing jurisdictions. Since by definition these assets are held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not included in the preparation of the government-wide statements.

**C. Measurement Focus and Basis of Accounting**

**Measurement Focus**

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets, deferred inflows of resources, deferred outflows of resources and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

For the government-wide statements, the governmental funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), and financial position. All assets, deferred inflows of resources, deferred outflows of resources and liabilities (whether current or noncurrent) associated with their activities are reported. Governmental fund equity is classified as net position.

Custodial funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Milwaukee County, Wisconsin

**Notes to Financial Statements**  
December 31, 2018  
(Continued)

**1. Summary of Significant Accounting Policies (continued)**

**C. Measurement Focus and Basis of Accounting (continued)**

**Basis of Accounting**

In the government-wide statement of net position and statement of activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and fiduciary funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for certain items related to long-term liabilities. Such items include: accumulated unpaid sick and merit pay, and principal and interest on general long-term debt which are reported when due.

**D. Assets, Liabilities, and Net Position/Fund Balance**

**Cash and Equivalents**

The Village has defined cash and equivalents to include cash on hand, and all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased.

**Investments**

Investments are measured at fair value on a recurring basis. *Recurring* fair value measurements are those measurements that GASB Statements require or permit in the statement of net position at the end of each reporting period.

The Village’s investments consist of the Local Government Investment Pool (“LGIP”), which is exempt from fair value disclosure due to investments being valued at amortized cost.

**Receivables**

In the government-wide statements, receivables consist of all revenues earned or to which the Village is otherwise entitled and has not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Management has determined that no allowance for uncollectible accounts is necessary since it is believed that such an allowance would not be material. Delinquent real estate taxes of the Village are paid in full by the county, which assumes the responsibility for collection. Major receivable balances for the governmental activities include taxes and user charges.

**Notes to Financial Statements**  
December 31, 2018  
(Continued)

**1. Summary of Significant Accounting Policies (continued)**

**D. Assets, Liabilities, and Net Position/Fund Balance (continued)**

**Receivables (continued)**

In the fund financial statements, material receivables in governmental funds include revenue accruals such as intergovernmental grants and aids, user charges for services provided, and other similar revenues since they are usually both measurable and available. Receivables collectible but not available are deferred in the fund financial statements in accordance with the modified accrual basis of accounting, but not deferred in the government-wide financial statements in accordance with the accrual basis of accounting. Interest and investment earnings are recorded when earned, only if paid within 60 days since they would be considered both measurable and available.

Property taxes are recorded in the year levied as receivables and unavailable tax revenues. They are recognized as revenues in the succeeding year when services financed by the levy are provided. In addition to property taxes for the municipality, taxes are collected for and remitted to the state and county governments, the Milwaukee Metropolitan Sewerage District, and the local and vocational school districts. Taxes for all state and other local governmental units billed in the current year for the succeeding year are reflected as receivables and as due to other taxing units on the statement of fiduciary net position – agency funds. Taxes are levied in December on the assessed value as of the prior January 1.

The Property Tax Calendar for the 2018 Tax Roll is as follows:

Lien date and levy date	November 2018
Tax bills mailed	November 2018
Payment in full, or	January 31, 2019
First installment of 50% due	January 31, 2019
Second installment of 25% due	March 31, 2019
Third installment of 25% due	May 31, 2019
Special charges and personal property taxes in full	January 31, 2019
Tax sale of 2015 delinquent real estate taxes	October 2019

**Interfund Receivables and Payables**

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as “due to and from other funds” on the fund financial statements and eliminated on the government-wide financial statements. Any balances not anticipated to be repaid within one year are classified as advances to and from other funds.

**Inventories and Prepaid Items**

Governmental fund inventory of materials and supplies are charged to expenditure accounts when purchased; year-end inventory was not significant.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

**1. Summary of Significant Accounting Policies (continued)**

**D. Assets, Liabilities, and Net Position/Fund Balance (continued)**

**Capital Assets**

The accounting treatment related to capital assets depends on whether they are reported in the government-wide or fund financial statements.

**Government-Wide Statements**

Capital assets with an original cost of more than \$5,000 and having an estimated useful life of four or more years are defined by the Village as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual costs are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Prior to January 1, 2004, infrastructure assets of the Village's governmental funds were not required to be capitalized. Upon the implementation of GASB 34, the Village is required to account for all capital assets, including infrastructure, in the government-wide financial statements prospectively from the date of implementation. Retroactive reporting of all major infrastructure assets is encouraged but not required. The Village has chosen not to retroactively report infrastructure assets from prior to January 1, 2004. The Village has incorporated all infrastructure assets meeting the Village's definition into the government-wide financial statements in subsequent years.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<b>Asset Class</b>	<b>Estimated Useful lives</b>
Land improvements	20
Buildings and improvements	40
Infrastructure (except traffic signals – 15)	25-80
Vehicles	5
Computer equipment	5
Equipment	7
Computer software	3

**Fund Financial Statements**

In the fund financial statements, capital assets acquired in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund.

**Accumulated Sick Pay and Merit Pay**

Compensated absences consist of accumulated sick and merit pay earned but unused by Village employees. Under terms of employment, municipal employees are granted merit and sick leave in varying amounts.

To the extent that sick leave and merit pay vests, such amounts are considered to be a long-term liability and are recorded as long-term debt in the government-wide financial statements up to the maximum amount to be paid out upon termination.

Sick leave is earned at the rate of one day for each month of employment and may be accumulated to a maximum of 140 days. Merit days are earned at the end of each calendar year of service based on the actual number of sick days used during a year. If zero sick days are used, then six merit days are earned. If one sick day is used, then five merit days are earned, etc. If six or more sick days are used within the year, then zero merit days are earned. Due to the long-term nature of these liabilities, the governmental funds do not report these liabilities in the fund financial statements unless they have matured. The government-wide financial statements record this liability as it is incurred.

**Long-term Obligations**

The reporting of long-term obligations depends on whether the assets are reported in the government-wide or fund financial statements. The long-term debt consists primarily of general obligation notes and bonds, accrued sick and merit pay, and the net OPEB liability.

All long-term obligations to be repaid from governmental resources are reported as liabilities in the government-wide statements. Premiums and discounts on issuance are deferred and amortized over the life of the debt. Issuance costs are expensed in the statement of activities.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of the debt and premiums on issuance are reported as other financing sources. Payments of principal and interest, as well as costs of issuance, are reported as expenditures.

**Equity Classifications**

**Government-Wide Statements**

The Village classifies net position in the government-wide financial statements as follows:

- a. *Net investment in capital assets* – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. *Restricted net position* – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. *Unrestricted net position* – All other net positions that do not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the Village’s policy to use restricted resources first, then unrestricted resources as they are needed.

**Fund Statements**

GASB requires the fund balance amounts to be reported within one of the following fund balance categories:

- a. *Nonspendable* – amounts that cannot be spent because they are either in nonspendable form or because they are legally or contractually required to be maintained intact.
- b. *Restricted* – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. *Committed* – amounts that can be used only for specific purposes determined by a formal action of the Village Board. The Village Board is the highest level of decision-making authority for the Village. Commitments may be established, modified, or rescinded only through the same type of action as employed to previously commit those amounts.
- d. *Assigned* – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Village’s policy, the Village Board may assign amounts for specific purposes at the recommendation of the Village Manager.
- e. *Unassigned* – all other spendable amounts.

**D. Assets, Liabilities, and Net Position/Fund Balance (continued)**

**Equity Classifications (continued)**

Village policy states that funds shall be committed through the adoption of a resolution and passed by the majority of the Village Board. The Village Manager may assign funds for specific purposes.

When multiple categories of funds are available for a particular purpose Village policy states that funds shall be spent in the following order: restricted, committed, assigned then unassigned.

The Village's current fund balance policy is to seek to maintain its unassigned fund balance at a minimum of 25% of total general fund annual revenues. The purpose of this unassigned fund balance is to provide adequate cash flow throughout the year and to allow the village the means to respond to unanticipated emergencies, contingencies, and opportunities that may not have been anticipated at the time of budget preparation. Use of the fund balance below the minimum balance required by this policy shall require the approval of the Village board.

**E. Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**F. Deferred Outflows and Deferred Inflows of Resources**

The separate financial statement elements, deferred inflow of resources and deferred outflows of resources, represent an increase or decrease in net position that applies to a future period(s) and thus, will not be recognized as an inflow of resources (revenue) or outflow of resources (expense) until then. The Village reports property taxes, unavailable project reimbursements and PILT revenue as deferred inflows of resources. The Village also reports deferred inflows and outflows of resources related to the WRS pension and the LRLIF, which are described in more detail in notes 4 and 5.

**G. Pensions**

For purposes of measuring the net pension liability (asset), deferred outflows and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System ("WRS") and additions to/deductions from WRS's fiduciary net position have been determined on the same basis as they are reported to WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**H. Other Post-Employment Benefits (OPEB)**

The fiduciary net position of the Local Retiree Life Insurance Fund (“LRLIF”) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIF’s fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**I. Adoption of New Accounting Guidance**

The Village implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pension*. See Notes 5 and 7 for additional information. The Village also implemented GASB Statement No. 84, *Fiduciary Activities*.

**2. Stewardship, Compliance, and Accountability**

**A. Deposits and Investment Laws and Regulations**

Investment of municipal funds is restricted by state statutes. Available investments are limited to:

1. Time deposits in any credit union, bank, savings bank, trust company or savings and loan association which is authorized to transact business in this state if the time deposits mature in not more than three years.
2. Bonds or securities of any county, city, drainage district, technical college districts, village, town, local exposition district or school district of the state.
3. Bonds or securities issued or guaranteed by the federal government.
4. The State of Wisconsin Local Government Investment Pool (“LGIP”).
5. Repurchase agreements collateralized securities referred to in 3 above.
6. Open-ended no load registered mutual funds that invest in securities referred to in 3 and 5 above.
7. Any security which matures, or which may be tendered for purchase at the option of the holder within not more than seven years of the date on which it is acquired, if that security has a rating which is the highest or second highest rating category of a nationally recognized rating agency.
8. Bonds issued by a local exposition district.
9. Bonds issued by a local professional baseball park district.
10. Bonds issued by the University of Wisconsin Hospitals and Clinics Authority.

Additional restrictions may arise from local charters, ordinances, resolutions and grant regulations.

**A. Cash and Investments**

Cash and investments as shown on the Village’s statement of net position are subject to the following risks:

	<b>Cash</b>	<b>Investments</b>	<b>Total</b>
<b>Petty Cash</b>	\$ 300	\$ ---	\$ 300
<b>Custodial Risk:</b>			
Demand deposits	6,347,972	---	6,347,972

<b>Total</b>	\$ 6,348,272	\$ 102,979	\$ 6,451,251

The Village’s cash and investments are reported in the financial statements as follows:

<b>Statement of net position:</b>	
Cash and investments	\$ 2,242,174
 <b>Statement of fiduciary net position:</b>	
Agency Fund cash and investments	4,209,077
<b>Total cash and investments</b>	\$ 6,451,251

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000. Deposits in each local and area bank and in the Wisconsin Local Government Investment Pool (“LGIP”) are also insured by the State Deposit Guarantee Fund in the amount of \$400,000 per financial institution. However, due to the relatively small size of the guarantee fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may not be significant to individual governmental entities. Investments in the local government investment pool are covered under a surety bond issued by Financial Security Assurance, Inc. The bond insures against losses arising from principal defaults on substantially all types of securities acquired by the pool. The bond provides unlimited coverage on principal losses, reduced by any FDIC, SDGF insurance, and income on the investment during the calendar quarter a loss occurs.

The LGIP does not have a credit quality rating and is also not subject to credit risk disclosure because investments are not issued in securities form. It is part of the SIF and is managed by the State of Wisconsin Investment Board. The LGIP is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually and carries investments at amortized cost for purposes of calculating income to participants. At December 31, 2018, the fair value of the Village’s share of the LGIP’s assets was substantially equal to the amount as reported in these statements.

Participants in LGIP have the right to withdraw their funds in total on one day’s notice. The LGIP does not include any involuntary participants.

A separate financial report for SIF is prepared in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Copies of the report can be obtained from <http://www.doa.state.wi.us/Divisions/Budget-and-Finance/LGIP>.

**Custodial Risk**

Custodial risk is the risk that, in the event of a bank failure, the Village's deposits and value of investments may not be returned to the Village. The Village's carrying value for demand deposits and local government investment pool was \$6,450,951 at December 31, 2018, and the bank's carrying value was \$6,619,982, of which \$1,402,979 was fully insured and \$5,217,003 was uninsured and uncollateralized. The Village does not have a policy on custodial risk.

**Interest Rate Risk**

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Village's investment policy limits the maturity of any security to no more than seven years from the date of purchase in accordance with state statutes.

**Credit Risk**

Generally, credit risk is the risk that an issuer of a type of investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk exposure. The Village's investment policy minimized credit risk by limiting investments to the safest type of securities.

**B. Interfund Balances and Transfers**

**Due to (from) other funds**

Balances due to and from other funds include interfund accounts receivable or payable for goods or services received or provided. Interfund balances are the result of timing differences. The following is a schedule of due to (from) other funds at December 31, 2018:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>	<u>Purpose</u>
Sewer Fund	General Fund	\$ 122,869	Property tax collections

**4. Defined Benefit Pension Plan**

**Plan Description**

The Wisconsin Retirement System (“WRS”) is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011 and expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee’s date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <http://etf.wi.gov/publications/cafr.htm>.

**Vesting**

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011 are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011 must have five years of creditable service to be vested.

**Benefits Provided**

Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/16) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant’s three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee’s contributions plus matching employer’s contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

WRS also provides death and disability benefits for employees.

**4. Defined Benefit Pension Plan (Continued)**

**Post-Retirement Adjustments**

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement:

The Core and Variable annuity adjustments granted during recent years are as follows:

<u>Year</u>	<u>Core Fund Adjustment</u>	<u>Variable Fund Adjustment</u>
2007	3.0%	10%
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2
2016	0.5	(5)
2017	2.0	4

**Contributions**

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as for general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period (calendar year 2017), the WRS recognized \$129,944 in contributions from the employer.

Protective with Social Security	6.7%	10.7%
Protective without Social Security	6.7%	14.9%

**Pension Asset, Pension Expense and Deferred Outflows and Inflows of Resources**

At December 31, 2018, the Village reported an asset of \$368,018 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2017, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2016 rolled forward to December 31, 2017. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The Village's proportion of the net pension asset was based on the Village's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2017, the Village's proportion was 0.0124%, which was an increase of 0.0002% from its proportion measured as of December 31, 2016.

For the year ended December 31, 2018, the Village recognized pension expense of \$175,110.

At December 31, 2018, the Village reported deferred outflows and inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 467,577	\$ 218,717
Net difference between projected and actual earnings on pension plan investments	393,887	899,695
Change in assumptions	72,713	---
Changes in proportion and differences between employer contributions and proportionate share of contributions	22,840	---
Employer contributions subsequent to the measurement date	141,600	---
<b>Total</b>	<u>\$ 1,098,617</u>	<u>\$ 1,118,412</u>

The amount of \$141,600 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
2019	\$ 384,011	\$ (333,797)
2020	338,695	(333,797)

**Actuarial Assumptions**

The total pension asset in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2016
Measurement Date of Net Pension Liability (Asset)	December 31, 2017
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.6%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*	2.1%

\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2015 using experience from 2012 – 2014. The total pension liability for December 31, 2017 is based upon a roll-forward of the liability calculated from the December 31, 2016 actuarial valuation.

*Long-term expected Return on Plan Assets.* The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

*Single Discount rate.* A single discount rate of 7.20% was used to measure the total pension asset. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long-term bond rate of 3.31%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset.

*Sensitivity of the Village's proportionate share of the net pension liability (asset) to changes in the discount rate.* The following presents the Village's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the Village's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	<b>1% Decrease to Discount Rate (6.20%)</b>	<b>Current Discount Rate (7.20%)</b>	<b>1% Increase To Discount Rate (8.20%)</b>
Village's proportionate share of the net pension (asset) liability	\$952,190	\$ (368,018)	\$ (1,371,419)

*Pension plan fiduciary net position.* Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <http://etf.wi.gov/publications/cafr/htm>.

**Payables to the Pension Plan**

Payables to the pension plan at December 31, 2018 were \$20,335. This represents contributions earned as of December 31, 2018, but for which payment was not remitted to the pension plan until subsequent to year-end.

***Plan Description***

The Local Retiree Life Insurance Fund ("LRLIF") is a multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible employees.

**OPEB Plan Fiduciary Net Position**

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <http://etf.wi.gov/publications/cafr.htm>

***Benefits provided.*** The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for their coverage.

***Contributions.***

The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

***Contributions (Continued)***

Employers are required to pay the following contributions based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of December 31, 2018 are:

<u>Coverage Type</u>	<u>Employer Contribution</u>
25% Post Retirement Coverage	20% of employee contribution

Employee contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2017 are as listed below:

<b>Life Insurance Employee Contribution Rates For the year ended December 31, 2017</b>	
<b>Attained Age</b>	<b>Basic</b>

50-54	0.22
55-59	0.39
60-64	0.49
65-69	0.57

During the reporting period, the LRLIF recognized \$628 in contributions from the employer

***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs***

At December 31, the Village reported a liability of \$99,512 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016 rolled forward to December 31, 2017. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The Village's proportion of the net OPEB liability was based on the Village's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2017, the Village's proportion was .0331%, which was a decrease of .0001% from its proportion measured as of December 31, 2016.

***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (Continued)***

For the year ended December 31, 2018, the Village recognized OPEB expense of \$9,861.

At December 31, 2018, the Village reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ ---	\$ 1,402
Net difference between projected and actual earnings on OPEB plan investments	1,146	---
Changes in assumptions	9,616	---
Changes in proportion and differences between employer contributions and proportionate share of contributions	---	291
Employer contributions subsequent to the measurement date	571	---
<b>Total</b>	<b>\$ 11,333</b>	<b>\$ 1,693</b>

The amount of \$571 reported as deferred outflows related to OPEB resulting from the employers contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<b>Year Ended December 31,</b>		<b>Deferred Outflows of Resources</b>		<b>Deferred Inflows of Resources</b>

**Actuarial assumptions.** The total OPEB liability in the January 1, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	January 1, 2017
Measurement Date of Net OPEB Liability (Asset)	December 31, 2017
Actuarial Cost Method:	Entry Age Normal
20 Year Tax-Exempt Municipal Bond Yield:	3.44%
Long-Term Expected Rate of Return:	5.00%
Discount Rate:	3.63%
Salary Increases	
Inflation:	3.20%
Seniority/Merit:	0.2% - 5.6%
Mortality:	Wisconsin 2012 Mortality Table

**Long-term expected Return on Plan Assets.** The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

**Single Discount rate.** A single discount rate of 3.63% was used to measure the total OPEB liability. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the Total OPEB Liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient.

**Sensitivity of the Village's proportionate share of the net OPEB liability to changes in the discount rate.** The following presents the Village's proportionate share of the net OPEB liability calculated using the discount rate of 3.63 percent, as well as what the Village's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.63 percent) or 1-percentage-point higher (4.63 percent) than the current rate:

	<b>1% Decrease to Discount Rate (2.63%)</b>	<b>Current Discount Rate (3.63%)</b>	<b>1% Increase To Discount Rate (4.63%)</b>

**A. Joint Ventures**

**North Shore Fire Department**

By agreement dated December 30, 1994, the North Shore Fire Department ("NSFD") was created. The NSFD, which provides a unified integrated fire and emergency medical service, began operations on January 1, 1996. The NSFD was created pursuant to the provisions of Wisconsin Statutes 61.65 and 66.30. Participants are the City of Glendale, Village of Fox Point, Village of Shorewood, Village of Brown Deer, Village of River Hills, Village of Whitefish Bay and Village of Bayside. The NSFD is operated by a Board of Directors consisting of seven members, which includes the mayor and village presidents of each participating municipality. The affirmative vote of a majority of the members of the Board of Directors is required on most matters. Also established by the agreement is a Joint Fire Commission that has the powers related to appointments, promotions, suspensions, removals, dismissals, reemployment, compensation, rest days, etc.

The powers of the Board of Directors include authorizing repair, maintenance, and renewal of physical assets and recommending adoptions of the department's budget. The capital and operating budget of the department must receive approval of at least five of seven participating municipalities.

**North Shore Fire Department (continued)**

Each participating municipality's annual financial contribution to the NSFD's operations and capital budget shall be based on its prorated share of the population, equalized valuation, and usage of all the municipalities. The Village accounts for its share of the operations of the NSFD in the General Fund. The Village made payments totaling \$396,817 to NSFD for 2018. The Village believes that the fire department will continue to provide services in the future at similar rates. Complete 2018 financial information is available from NSFD at 4401 West River Lane, Brown Deer, WI 53223. The Village does not report an equity interest in this joint venture.

**North Shore Library System**

The City of Glendale and the Villages of Fox Point, River Hills, and Bayside operate the North Shore Library under a Joint Library Agreement dated January 1, 1985. Under the joint agreement, a Joint Library Board was created to operate the North Shore Library. The Joint Board is composed of ten members: five members from Glendale, two members each from Fox Point and Bayside, one member from River Hills, and the Superintendent of Schools for Nicolet School District. The Joint Library Board has the power to repair, maintain, and renew physical assets for the library and to prepare and adopt a budget for the library's operating expenses and a budget for the library's capital improvement expenses. The operating budget must be approved by at least three of the four municipalities. In addition, the Joint Library Board has the power to appoint the Library Director and such other assistants and employees as it deems necessary. Operating and capital expenses are shared proportionately based upon population estimates published in October.

The Village made payments totaling \$57,525 to the Library in 2018. The Village accounts for its share of the operations of the North Shore Library in the General Fund. The Village believes that the library will continue to provide services in the future at similar rates. Complete 2018 financial information is available from the Village of Fox Point, who is the fiscal agent for the North Shore Library. The Village does not report an equity interest in this joint venture.

**Dispatch Services**

The Villages of Fox Point, River Hills, and Bayside jointly operate a dispatch service under a joint service agreement. Under the joint agreement, the Village of Bayside provides dispatch services to the three municipalities. The cost of these services is shared between the communities as agreed upon in the individual agreements. A separate board has not been established to govern the dispatch service activities. Changes to the agreements and to the services provided require the approval of all three village boards. During 2018, the Village made payments totaling \$208,933 to the Village of Bayside. The Village does not report an equity interest in this joint venture.

**B. Franchise Fees**

The Village has entered into an agreement with Cellular One - Eastern Wisconsin, which subsequently became U.S. Cellular. It was renewed for an additional five-year term on September 22, 2014. The contract is in the final renewal phase. Annual fees for the current five-year term are \$20,988. Fee income under this agreement for the year ended December 31, 2018, was \$20,988.

The Village also receives revenue from Time Warner Cable, Inc. (Charter Communications). Time Warner (Charter) pays five percent of its gross income from cable revenue earned in the Village. In 2018, the Village received approximately \$22,688 from Time Warner Cable, Inc. (Charter Communication).

The Village also has an agreement with Sprint Spectrum, L.P. which subsequently became Sprint/Nextel. It was renewed for an additional five-year term on May 31, 2016. The contract is in the final renewal phase. Annual fees for the current five-year term are \$51,474 for 2017 plus an additional 4% increase per year. Fee income under this agreement for the year ended December 31, 2018, was \$53,533.

The Village entered into an agreement with Verizon Wireless in 2007. The initial term was for five years, expiring October 5, 2012. It was renewed for the second five-year term ending in 2021. This agreement is renewable for two additional five-year terms. Fees for the renewal year were \$40,000 with fees increasing by 4% every year thereafter. Fee income under this agreement for the year ended December 31, 2018, was \$54,848.

The Village entered into an agreement with Cingular (AT&T) in 2001. It was renewed for an additional five-year term during 2016. This agreement is renewable for one additional five-year term. Fees for the renewal year were \$52,739 increasing by 4% every year thereafter. Fee income under this agreement for the year ended December 31, 2018, was \$57,042.

The Village entered into an agreement with T-Mobile in 2001. It was renewed for an additional five-year term during 2016. This agreement is renewable for one additional five-year term. Fees for the renewal year were \$44,310 increasing by 4% every year thereafter. Fee income under this agreement for the year ended December 31, 2018, was \$47,926.

**C. Claims and Judgments**

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. If they are not to be liquidated with expendable available financial resources, no liability is recognized in the governmental fund statements. The related expenditure is recognized when the liability is liquidated. Claims and judgments are recorded in the government-wide statements as an expense when the related liabilities are incurred. There were no significant claims or judgments at year end.

**D. Risk Management**

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Village. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

**E. Commitments**

The Village enters into various intergovernmental agreements with the Milwaukee Metropolitan Sewerage District for purposes related to reconstructing and maintaining sewer lines within the Village. The Village has agreed to pay engineering fees for these projects. Upon each separate project completion, the Milwaukee Metropolitan Sewerage District will reimburse the Village for all expenses paid for a specific project. Total costs paid as of December 31, 2018 were \$122,486.

**F. Subsequent Events**

Management of the Village has evaluated subsequent events for possible inclusion or disclosure through the date the financial statements were available for distribution, May 15, 2019. The following subsequent events require disclosure:

- In January 2019, the Village awarded the bid for the Green Bay Court sewer project to be paid by MMSD.
- In January 2019, the Village approved the 2019 capital expenditure schedule in the amount of \$658,000.
- In March 2019, the Village approved \$124,009 for the Village Hall parking lot and awarded the bid for the project.
- In March of 2019, the Village passed a resolution to apply for a loan in the amount of \$658,269 from the State Trust Fund to finance 2019 capital purchases.

**7. Adjustment due to change in Accounting Principle**

The Village implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This Statement modified requirements for the accounting and financial statement reporting for postemployment benefits. The Village participates in the Local Retiree Life Insurance Fund which is a multi-employer defined benefit OPEB plan. Due to the application of GASB Statement No. 75, a prior period adjustment of \$80,639 was recorded for the OPEB liability.

**8. Effect of New Accounting Standards on Financial Statements**

The Government Accounting Standards Board (GASB) has approved the following:

- Statement No. 83, *Certain Asset Retirement Obligations*
- Statement No. 85, *Omnibus 2017*
- Statement No. 86, *Certain Debt Extinguishment Issues*
- Statement No. 87, *Leases*
- Statement No. 88, *Certain Disclosures Related to Debt, Including Director Borrowings and Direct Placements*
- Statement No. 89, *Accounting for interest-cost incurred before the end of a construction period*
- Statement No. 90, *Majority Equity Interest – An amendment of GASB Statements No. 14 and No. 61*

When they become effective, application of these standards may restate portions of these financial statements.

**VILLAGE OF RIVER HILLS**  
Milwaukee County, Wisconsin

**Notes to Required Supplementary Information**  
December 31, 2018

**1. Budgetary Information**

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund.

The Village adopted annual Governmental Fund Budgets for the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Funds. These budgets are adopted in accordance with State Statutes. All annual appropriations lapse at year-end except for certain non-lapsing funds specifically designated by the Board. Budgetary control is exercised at the individual function level for each fund.

The budget amounts presented include any amendments made during the year. The Village may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds Board action. There were no supplemental appropriations during the year.

**2. Excess Expenditures Over Appropriations**

The Village had the following expenditures in excess of appropriations as presented in the “Budgetary Comparison Schedule – General Fund Expenditures”:

General government	\$	54,556
Public safety		53,157
Public works		13,615
Health, conservation and sanitation		2,392
Other		5,324

The excess expenditures were absorbed by revenues in excess of budget, available fund balances and unspent debt proceeds.

The Village had the following expenditures in excess of appropriations as presented in the “Budgetary Comparison Schedule – Special Revenue/Sewer Fund”:

Public works	\$	64,919
Capital outlay		99,033

The excess expenditures were absorbed by revenues in excess of budget and loan proceeds.

**3. Budgetary Process**

The Village uses the following procedures in establishing the budgetary data reflected in the financial statements:

- The Village Clerk/Treasurer/Manager requests proposed details of expenditures from the various departments for the following fiscal year. Proposed department expenditures are submitted to the Village Clerk/Treasurer/Manager who determines the details of required revenues, and in turn, submits the proposed revenues and expenditures to the Village Board.
- Upon receipt of the proposed budget, public notice is given that the proposed budget is open for inspection.
- The budget for Governmental Funds is legally enacted by the Village Board resolution early in December.
- Formal budgetary integration is employed as a management control device during the year for the General Funds.
- The operating budgets for the General, Debt Service, Capital Projects and Special Revenue Funds are adopted on a basis consistent with GAAP.
- Budgetary information as presented in the financial statements is derived from:
  1. The annual operating budget as originally adopted by the Village Board.
  2. Individual amendments to the original budget as approved by Village Board resolutions.

**4. WRS Information**

There were no changes to benefit terms for any participating employee in the WRS. There were no changes in the assumptions.

**5. OPEB Information**
