## Submittal checklist

Volume of material being moved at the site (Cubic Feet): \_\_\_\_\_

Area of Property (acres): \_\_\_\_\_ X 20 CY = \_\_\_\_\_

*Permit required if the volume of material being moved exceeds 20 cubic yards per acre.*

Is the activity located within the set-back area of a lot or parcel  
as defined in section 15.01(9): \_\_\_\_\_ Y N

If YES, the Village Clerk shall give notice to all property owners whose property adjoins or abuts the portion of the property where the activity is proposed. This is intended to require notice to property owners whose property is separated from the property by a public or private road but is located on the opposite side of the road where the activity is proposed. No activity for which this permit is required, or any activity described in subsection (7) hereunder may be commenced prior to three (3) weeks from the date a notice of the proposed activity is served upon the adjoining or abutting property owners. Notice is complete upon mailing a notice advising the property owner(s) that the application, permit, description of location of proposed activity and a copy of the control plan, if otherwise required, are available for inspection at the office of the Village Clerk.

**Proposed Start of Activity:** \_\_\_\_\_ **Proposed End of Activity:** \_\_\_\_\_

No land owner or land user may commence land disturbing construction activity, land development activity, excavate or fill any lands as set forth above, without receiving prior approval of an EROSION CONTROL PLAN for the site and a permit from the Village Clerk.

At least one land owner or land user controlling or using the site and desiring to undertake an activity requiring a permit shall submit an application for a permit and an erosion control plan and pay an application fee as set forth in the schedule of fees as adopted and subject to amendment from time to time by Resolution of the Village Board. The Resolution and the applicable schedule of fees shall be kept on file in the Office of the Village Clerk and will be posted on the village website.

The permit may be in effect for a period of up to six months and shall be subject to renewal. The Village Board shall have the right to revoke any permit at any time and/or direct the Clerk not to renew a permit if, in the judgment of the Village Board, the permittee has failed or refused to comply with any of the regulations relating to the filling or excavation of lands.

## Permit Application Submittal

Required Item	Included with Application	
Existing conditions and proposed final grades for the area to be disturbed; <b>SHOW ON A GRADING PLAN</b>	Y	N
Locations and dimensions of all proposed land disturbing activities; <b>SHOW ON A SITE OR GRADING PLAN</b>	Y	N
Locations and dimensions of all temporary soil or dirt stockpiles; <b>SHOW ON A SITE OR GRADING PLAN</b>	Y	N
Locations and dimensions of all construction site management control measures necessary to meet the requirements of this ordinance; <b>IDENTIFY ALL EROSION CONTROL MEASURES ON PLAN</b>	Y	N
Schedule of anticipated starting and completion date of each land disturbing or land developing activity, including the installation of construction site control measures needed to meet the requirements of this ordinance; <b>INDICATE ON THIS FORM</b>	Y	N
Provisions for maintenance of the construction site erosion control measures during construction. <b>PROVIDE NARRATIVE DESCRIPTION.</b>	Y	N
Location and dimension of all wetland areas as defined in this ordinance. <b>SHOW ON SITE PLAN AND PROVIDE DELINEATION REPORT</b>	Y	N
State Permits – <b>INCLUDE PERMIT IF APPLICABLE</b>	Y	N

No permit shall be issued until the application shall have been submitted to and approved by the Village Engineer, and further that if the land disturbing construction activity will result in the construction of a hill, mound, or berm exceeding four feet in height, then the application for permit shall also be subject to approval of the Building Board of the Village of River Hills.

**Fill shall be placed, and materials excavated only where and as approved by the Engineer.**

**Bond Requirement Waiver Requested by Applicant:** Y      N

---

All applications for a permit within the provisions of subsection (2) hereof shall be accompanied by a cash bond or surety bond executed by a surety company licensed to do business in Wisconsin, in the sum of not less than Five Thousand (\$5,000.00) Dollars, or in such higher amount as is certified by the Village Engineer to be required for the purpose of securing the Village against any and all damages to Village property and/or expenses the Village may incur resulting from such filling or excavation operations.

**Bond Requirement Waiver Certified by Village Engineer:** Y      N

---

The bond requirement may be waived in all or part, if the Village Engineer certifies to the Village Manager that the bond is not required or a bond in a lesser amount is sufficient for the operations under an application. The certification to the Village Manager shall affirmatively set forth that the Village Engineer has determined that the operations proposed will not have an adverse effect upon the health, safety, welfare or property of the Village.

## DURATION OF PERMIT

The initial permit fee for all operations be as set forth in the schedule of fees as adopted and subject to amendment from time to time by Resolution of the Village Board, and shall permit operations for one month from the date of the permit.

An additional permit fee per month, after the first month, as set forth in the schedule of fees as adopted and subject to amendment from time to time by Resolution of the Village Board, shall be paid at the time of application, up to maximum of six (6) months. The Resolution and the applicable schedule of fees shall be kept on file in the Office of the Village Clerk and will be posted on the village website.

In the event that the operations are not completed within the time for which permit fees have been paid, the permit shall terminate and a new application, surety bond, and initial and monthly permit fees shall be submitted and approved before the permittee shall be allowed to continue the operations. No refund of any permit fees shall be made. (Amd Ord 537, 10/16/19)

**No land development activity, land disturbing construction activity, filling, or excavating, or grading regardless of the amount of filling, excavating, or grading may be commenced in the set-back area of a lot or parcel as defined in section 15.01(9) until the property owner or user has submitted a plan of operation sufficient to identify the nature, location, and quantity of the activity to the Village Engineer. Notice to adjoining property owners shall be as required in Section 15.02(1).**

## THE FOLLOWING ARE EROSION CONTROL PERMIT CONDITIONS

1. Notify the Village Engineer within 48 hours of commencing any land disturbing activity;
2. Notify the Village Engineer of completion of any erosion control measures within 14 days after their installation;
3. Obtain permission in writing from the Village Engineer prior to modifying the erosion control plan;
4. Install all control measures as identified in the approved erosion control plan;
5. Maintain all road drainage systems, storm water drainage systems, control measures and other facilities identified in the erosion control plan;
6. Repair any situation or erosion damage to adjoining surfaces and drainage ways resulting from land developing or disturbing activities;
7. Inspect the erosion control measures after each rain of 0.5 inches or more at least once each week and make needed repairs;
8. Allow the Village Engineer to enter the site for the purpose of inspection compliance with the erosion control plans or for performing any work necessary to bring the site into compliance with the control plan;
9. Keep a copy of the erosion control plan on the site; and
10. Submit a landscape plan detailing both plan and elevation of construction if a hill, mound or berm, will exceed four feet in height.
11. Identify and delineate any wetlands that will be altered. Delineation of wetlands shall be performed by any of the following: Department of Natural Resources, Southeastern Wisconsin Regional Planning Commission, or other qualified professional.
12. Obtain all required permits from the Wisconsin Department of Natural Resources and/or the Army Corp of Engineers necessary to alter any wetlands.
