Re: 2025 Rates

Dear Tammy & Village Board,

We are winding down another excellent year of collection in the Village with very few complaints to report. Our educational focus for the next 18 months in conjunction with our municipal partners is focused entirely on keeping rechargeable batteries out of your residential collection containers. When compacted or impacted in the wrong way, even fully discharged batteries can start on fire often causing significant damage to our fleet and / or facilities. **Please help us to remind residents that they must work diligently to keep these out of their garbage and recycling receptacles.**

**Contract Services (per month)**
